

TypeScript • JavaScript • React • Next.js • Node.js • REST APIs • AI Integration

PROFILE

Software Developer with experience building AI-integrated web applications, automation workflows, and production-ready frontend systems using React, TypeScript, Next.js, REST APIs, and relational databases. Hands-on experience with AI agents, tool calling, n8n automation, Claude Code, and LLM-powered application development through professional internship and AI engineering projects. Honours graduate (98% GPA) passionate about building practical AI systems that solve real-world problems.

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, Python, Swift, Kotlin, PHP
Web & APIs: React, Next.js, Node.js, Angular, REST APIs, API Integration, Authentication
AI Development: LLM Applications, Tool Calling, Claude Code, ChatGPT, Prompt Engineering, Zod
Data: MySQL, PostgreSQL, Core Data, Relational Data
Testing: Vitest, Testing Library, Functional Testing, API Testing, Validation, Debugging, Root Cause Analysis
Workflow: Git, GitHub, GitHub Actions, Jira, Swagger, Agile/Scrum, Code Review, SDLC
AI Development: n8n, AI Agents, LLM Applications, Tool Calling, Claude Code, ChatGPT, Prompt Engineering, Zod, Structured Outputs
Automation: n8n, Webhooks, REST APIs, JSON Workflows, API Integrations
Cloud: Azure Fundamentals, AWS Fundamentals, REST API Deployments

PROFESSIONAL EXPERIENCE

FlyRank AI | Frontend AI Engineering Intern Remote | Jul 2026 - Present

- Build AI-integrated web applications using React, TypeScript, Next.js, and LLM APIs.
- Develop AI agents using tool calling, structured outputs, streaming responses, and Zod validation.
- Design automation workflows using n8n, AI prompts, and API integrations.
- Implement AI-assisted development workflows with Claude Code and ChatGPT for testing, debugging, documentation, and code generation.
- Validate implementations through automated testing, accessibility audits, linting, and code review.

R-A-Ones Corporation | Software Developer Intern Brampton, ON | Jan 2026 - May 2026

- Delivered 5+ production-ready features using React, Next.js, TypeScript, and REST APIs.
- Built 10+ reusable UI components to improve application consistency and maintainability.
- Integrated REST APIs with authentication, validation, and error-handling workflows.
- Diagnosed and resolved software and API defects through testing, debugging, API validation, and root-cause analysis.
- Collaborated in Agile sprints using Git/GitHub, pull requests, Jira, and Swagger.

Frontend Developer | Freelance Projects Mississauga, ON | May 2026 - Present

- Redesigned and modernized a live event-host website with responsive and accessible interfaces.
- Implemented interactive reviews, booking workflows, social media integrations, and consultation features.
- Managed deployment, analytics integration, production updates, and GitHub Pages hosting.

SELECTED PROJECTS

Glowi | Sports Club Management Platform Next.js | TypeScript | AI SDK | Zod

- Built an AI-powered assistant for sports club management using Next.js, TypeScript, AI SDK, and tool calling.
- Created server-side tools for competitions, payments, and athlete schedules using structured data retrieval and Zod validation.
- Designed conversational AI workflows with streaming responses and modular AI architecture.

Fluidex Drive | iOS Vehicle Management Application Swift | SwiftUI | MVVM | Core Data

- Built an iOS application for vehicle tracking, maintenance records, service schedules, and reminders.
- Developed reusable SwiftUI components using MVVM architecture and reactive UI updates.
- Implemented Core Data persistence, validation, debugging, and application state workflows.

EDUCATION

Mobile Web Developer Diploma - Honours
GPA: 98%

triOS College | Toronto, ON | 2026
